CALL FOR PAPERS

- Smart materials: shape memory alloys and polymers, electro and magnetorheological materials, piezoelectric, ferroelectrics, multiferroics, piezomagnetism, electro and magnetostrictive materials, thermoelectric, photovoltaics, electro and magneto caloric materials, electrochromic, electroactive polymers, energy storage materials, self-healing materials and multifunctional materials in general
- Application of smart materials, structures and related technology
- Intelligent systems, integrated with sensors, actuators and controllers, applied to automation and robotic systems that utilize smart material systems

More topics can be checked on this website: <http://icmesm.org/cfp.html>

Submission Instructions

- Online Submission System. To make the submission, an account is necessary.
- Conference Email Address: icmesm@iacsit.net

Committees

- Conference Chairs
Prof. Jesus Toribio, University of Salamanca, Spain
Prof. Sergei Alexandrov, Beihang University, China
